Education

BS in Computer Science, FAST NUCES Lahore (CGPA: 3.21)	2021 – 2025
FSC, Punjab Group of Colleges, Gujranwala	2020 – 2021
Matric, Quaid-e-Azam Public College, Gujranwala	2019 – 2020

Experience

Web Development Trainee at Coding Crafts   June 2024 – August 2024

- Developed and maintained Next.js application as part of web development projects.

- Collaborated with team to build dynamic UI components and integrate APIs.

Projects

Machine Learning, Wazuh, ELK Stack   FYP: SecuSight - AI Anomaly Detection System **(EBRYX)**

- Developed an AI-based anomaly detection system for elevated logins and DDoS attacks using Wazuh, ELK, and ML models.

Python, TLS, Flask, Dashboard   Secure TLS Web Server

- Built a secure web server with rate limiting, authentication, logging, honeypot redirection, and a real-time monitoring dashboard.

NLP, Flask, Python   MCQ Generator App

- Generated MCQs using keyword extraction (pke, NLTK) with distractors and data visualization.

Java, Android Studio   Khata Mobile App

- Digital ledger app for vendors to manage transactions and customer data.

Next.js, MongoDB   Ecommerce Store App

- Online shopping app where stores can manage products and customers can place orders.

MERN   SmartCart

- Online shopping app for customers and placing orders.

Java, Android Studio   Restaurant Data App

- Stored restaurant details using shared preferences and assigned random ratings.

React, ASP.NET, SQL   University Management System

- A web app created to manage the data of students and teachers.

Kotlin, Android Studio   Photo Editing App

- Built a cropping module as part of a group photo editing app, contributing to modular development.

Certificates

- Dean's List Award Holder – Fall 2024, Spring 2025
- Freelancing (Fiverr, Upwork) – NS Training
- Graphic Designing – NS Training

Skills

Languages: C, C++, Java, Python, JavaScript, SQL, Assembly Language
Technologies: Android Studio, React, Next.js, Flask, ASP.NET, MongoDB, SQLite, MERN Stack
